

Paralegal Studies Diploma Program

Length of course: 12 months

The employment prospects for paralegals are significantly above average due to the growing involvement of paralegals in mediation and business services and the use of computerized legal databases. This Westervelt program effectively blends theoretical and practical aspects, helping you provide legal services to the public either in a law firm or your own paralegal practice.

"Not only did I achieve my goal in one short year, obtaining excellent skills and training in my program, but Westervelt helped me find an incredible job too!"

- Wendy V.
